English made easy

Studying abroad is a once in a lifetime opportunity for you to accelerate your learning and progress to the level you want to achieve. It may seem difficult, but it's our job to make it easy! So how do we do it?

The right level for you

On your first day at ELC you'll take a placement test and have a spoken interview so we can place you in the class that's right for you. You'll then choose your elective classes which are also streamed by level.

Our methodology

You will have many opportunities to communicate throughout the lesson with your teacher and classmates. Your teacher will use a variety of approaches to present and practise language and skills in real-world contexts.

Collaborative learning

Our classrooms and learning spaces have been specifically designed to facilitate communication and comfort and give you variety in your learning day.

Learning and technology

Lessons are all face-to-face but teachers use the latest digital resources to ensure that your lessons are varied, up-to-date and dynamic.

Fast pace, maximum progress

Our classes are intensive but it's the whole experience that will ensure that your English improves a lot in a short time. Speaking English all day, taking part in our activities around Kuala Lumpur, socialising with your classmates will all assist your progress. Every Monday you will take a short progress test to revise and assess what you have studied.

Customised courses

We offer a range of major English courses which are complemented by your choice of electives so that you can learn exactly what you need. Choose your core course when you enrol and then the electives once you are at ELC. It's easy!

Optional activities, clubs and clinics

Our special interest classes, activities and clubs each week are the perfect opportunity to do the things that interest you most and which are the most relevant to you.

Coursebook to keep

On the first day of your new class and if you change course or level, you'll be given a coursebook to keep. We think that it is important that classes follow a coursebook to give their program structure and for you to use as a reference in the future.

Small classes

We have small classes so that you can get the attention you need. Our maximum class size is 20 students with an average of 12.

Study plans

Longer-term students draw up a plan of study with our senior teachers. We discuss your goals and help you plan your route to achieving them, including which electives and English Extras to choose as well as any external examinations. You'll also have regular tutorials with your class teacher to discuss your progress and review your study plan.

Certificates and level records

Your ELC certificate is a record of your course and level of English upon completion that you can show to prospective employers or higher education institutes.

Your Malaysia experience

Outside of school, you'll be immersed in English and have the opportunity to make new friends of many different nationalities. You'll also get the chance to discover Malaysia's unique culture by trying local food, visiting famous landmarks, and travelling outside Kuala Lumpur.

Academic pathways

All higher and tertiary education institutions in Malaysia require international students to meet English requirements, usually by showing an IELTS test score. However, ELC also has agreements with many major universities and colleges who allow our students to enter directly into certificate, diploma, graduate and postgraduate programs without an IELTS test, providing you have successfully completed our Academic English course at the appropriate level.

Yana Kafary, Kazakhstan

"Our school has good and sympathetic teachers to help in word and deed. Teachers at ELC are representatives from different countries. Our teachers can easily interact with us, each with their own distinctive approach to the teaching method, his own style, with games, songs and dances in the classroom. Here at ELC the teacher is first and foremost a friend, someone who is always ready to help. This is not just a collection of random people. It's a close-knit team of motivated people."

Academic Semester or Year abroad

Be amazed at what you can achieve!

Study at ELC for a full semester or academic year and improve your English significantly. You'll achieve fluency and accuracy and be well-prepared to achieve your academic and professional goals. Tailor your academic semester or year to your own needs and interests and your learning and living experience will truly be unique.

ELC Academic Semester/Year program:

36 weeks or 48 weeks

Combine your choice of courses (depending on your entry level). Most academic semester students start their studies with General English to make rapid progress in their all-round English. They then move on to specialise in academic, business or exam studies. Semester or academic year students at the right level usually take at least one international English exam in this time.

Personalised Study Plan

During the first week of your course, you'll meet your academic advisor to plan your course of study. They will help you choose electives, enrol you in exams or recommend what you can do outside of class to improve your English. Every 12 weeks (or see them sooner if you want) you'll meet your advisor to readjust your plan and make sure that you are on target to achieve your goals.

Student ambassadors

Our academic semester/year students have the chance to become ELC student ambassadors. This means that they orientate and support new students, have the chance to participate in some paid activities for free and represent the school to visitors. This a great chance to refine your communication skills, enhance your resume for employment and get an Ambassador Certificate from ELC. It's also a fun thing to take part in!

"Before we came to Malaysia we asked some friends about ELC. They told us it's the best institute in Malaysia and they have a lot of teachers from various countries, Britain, United States, Australia, New Zealand, Thailand, Iraq, Hungary, and Malaysia. The teachers speak very well and speak slowly with the students. They teach not just from the book but teach information for life to make you speak English fluently.

There are people from different countries and many cultures in Malaysia, because Malaysia is a beautiful country. ELC has students from different countries. This teaches me cultural exchange. The school location is wonderful. It is close to restaurants and shopping, Times Square Mall, train and monorail. There are good classrooms with comfortable chairs and air conditioning that is good for me. And we have good technology, computers and projectors.

We have many friends because we are twins. Sometimes we feel ourselves famous because some students and teachers want to take photos with us. We are very happy because we study at ELC. We will stay at ELC for 6 months and we hope we get certificates of IELTS. If you want to learn English quickly you should go to ELC."

See you soon!
